

PRESS RELEASE – MAY 22, 2013 – AEROHANDLERS

Sapura Aero's AeroHandlers offers distinct ground handling services to all from Malaysia

AeroHandlers Sdn Bhd, equipped with over 14 years of experience in the provision of ground handling services to business aviation owners and clients, is the leading specialist service provider in Malaysia under the Sapura Aero Group, the only Malaysian company that provides one-stop shop business aviation solutions.

Sapura Aero is in this unique position for clients in Malaysia because it can provide integrated services to all in the business aviation industry via AeroHandlers as well as its two other specialist companies -- AeroDome Sdn Bhd and Air Alsie Asia Pacific.

Strategically located near Subang Airport and newly rebranded ground handler, AeroHandlers Sdn Bhd, was formerly known as Dnest Aviation Services. The company delivers dynamic methods to all aspects of ground handling that encompasses technical support, coordination, refueling, passenger and crew transportation, catering, and customers' accommodation and clearance services.

Its sister company, AeroDome, is the leader in offering hangarage services at Subang with a clear span of more than 120,000 sq ft of space, which represents 78% of total available net lettable area for third party business jets (MTOW 10,000-100,000lbs).

The company's four hangars are able to accommodate various ranges of aircraft, from the larger aircraft such as A320 & B737 to BE90, PC12 or helicopters. The hangar complex in Subang also offers office space for rental that creates an inducive hub of integrated services for private and business aircraft owners and operators.

AeroHandlers and AeroDome, given the depth of its industry professionals' technical knowledge, are ready to take on new clients and meet customers' precise requirements in managing their aircraft.
